PLANTING MONEY

When you put your money in good real estate you are planting it in fertile ground, for the real estate will surely advance in value. Look back over the past two or three years and compare prices then with now. Are you one of the fortunate land buyers of two years ago? If you are not, then you should cast about to secure a piece of realty right away. It will grow in value all right, and if improved, it will pay you a handsome dividend in addition to its natural increase in value. See our lists.

Real Estate

We have never made any extravagant claims for real estate as an investment; but have always sturdily maintained that Pensacola dirt is the best thing that a Pensacola citizen can put his surplus cash in.

The growth of Pensacola is apparent to any one who will take the trouble to keep his eyes open while riding on the cars; who will investigate the building records, the increase in bank statements, postal receipts or any of the usual barometers of prosperity. The growth that is so apparent, we believe marks the beginning of the building of a great city.

Put your money in business as long as it is profitable to you. We are not after your active money that is paying you well in bank stock, business or mercantile enterprise; we are after your idle surplus cash. If you are dealing in mules or coal or ice or dry goods, we are not advising you to cripple your business by withdrawing funds and buying real estate. You ought to own a home, that is certain. You ought to have the satisfaction of living in your own house.

It might be well for you to soak away something in real estate on the side, just to fall back on in case of need. Something that will carry itself at a fair rate of interest and be readily marketable in an emergency, is what we mean. The point we make is that ownership of real estate doesn't interfere with your active business. In no other way can you make money by a process of inaction.

If you haven't the price in a bulk, our easy term proposition will enable you to become an investor and share in the measure of enhancement, just the same as if you had the cash. Other people are buying lots and homes on time and selling them in a year or two at big profit. You can come in if you want to. Our business is to put you next to good things that come along. When you know a thing is coming, don't wait until it happens and expect to get in on the ground floor. Do it now.
